

**RESOLUTION
IN SUPPORT OF
FUNDING FOR NATIVE AMERICAN TRIBES
TO CONSERVE AND MANAGE WILDLIFE**

WHEREAS, Native American Tribes provide invaluable contribution to the conservation and management of wildlife resources; and

WHEREAS, adequate funding for Tribes to conserve and manage wildlife resources is often insufficient;

THEREFORE BE IT RESOLVED, that the Arizona Game and Fish Commission recognizes that the conservation efforts of our partner tribes and nations natural resource agencies are essential to accomplishing the large scale programs necessary to ensure the recovery and conservation of North American wildlife populations and their habitats. Therefore, the Arizona Game and Fish Commission supports the inclusion of specific funding for Native American tribal agencies in congressional legislation that would fund future wildlife conservation efforts across the United States.

Eric Sparks, Chairman
Arizona Game and Fish Commission
